

GREENGUARD CERTIFIED

In recent years, concern has grown over the need for employees to have a healthy work environment. Out of this concern has grown the Greenguard Environmental institute: an independent organization that has established strict limits of air quality standards for indoor products. The Greenguard standard has become the criteria which many governments, corporations, health care facilities, and non-profit organizations require in their workplaces. This helps ensure a healthy environment for employees, customers, and guests alike.

Performance is only one of a few Canadian companies that have had their laminate workstations and related products certified by the Greenguard Environmental institute as meeting their emissions standards. For more information on Greenguard certified products visit www.greenguard.org
